Please preserve Our Rights to allow XM Radio to Broad cast Local weather and traffic information.I personally enjoy the services that the xm brings to me and this is a service I gladly pay for ,why should it be limited to a local station signal that will fade out in a short Distance,with the XM signal I can keep tabs on local weather while I am traveling out of the local Signal and the instant Traffic Advisory's are very Helpful to thousands of user's of XM.I really Belive XM is the best game around when it comes to the Air waves,I respectfully urge the FCC to reject the NAB'S petition 04-160.
